# Conformity, Environment & Safety

✦ *Safety information :*
This equipment is not designed for making emergency calls when the power fails. An alternative should be made available for access to emergency calls.

✦ *Conformity :*
Hereby, PHILIPS, declares that the product range Kala 300 is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC (DoC available on www.philips.com). This product can only be connected to the analog telephone network in the geographical area which is indicated on the label of the box.

✦ *Power requirements :*
The product requires an electrical supply of 220-240 volts, single phase alternating current, excluding IT installations defined in standard EN 60-950.

✦ *WARNING !*
The electrical network is classified as dangerous according to criteria in the standard EN 60-950. The only way to power down this product is by unplugging the power supply from the electrical outlet. Ensure the electrical outlet is located close to the apparatus and is always easily accessible.

✦ *Telephone connection :*
The voltage on the network is classified as TNV-3 (Telecommunication Network Voltages, as defined in the standard EN 60-950). Following a power cut, date and time settings, as well as the call in progress are lost.

✦ *Safety precautions :*
Do not allow the handset to come into contact with liquids. Do not open the handset or the base station. This could expose you to high voltages. Do not allow the charging contacts or the battery to come into contact with conductive materials.

✦ *Environmental care :*
Please remember to observe the local regulations regarding the disposal of your packaging materials, exhausted batteries and old phone and where possible promote their recycling.

● **You can install your product immediately and start using the phone after charging it for 24 hours.**

● **You need to perform an operator setting if you are not connected to the main operator network in your country. (see page 14)**

● **In case you need to change the battery pack, always use a NiMH AAA 600 x 2 rechargeable battery pack .**

**(duo) (Trio) (Quattro)**

*The information included in this manual is also valid if you have bought a Duo, Trio or a Quattro pack in the Kala 300 range.*

Philips has marked the battery and packaging with standard symbols designed to promote the recycling and appropriate disposal of your eventual waste.
Batteries should not be disposed of with general household waste.

A financial contribution has been paid to the associated national recovery & recycling system.

✦ *Inserting / Replacing battery / Telephone connection*

**Warning :To insert the battery and/or to connect your telephone, please refer to the drawings printed on the inside cover and on the lip inside the box.**

With the help of the installation drawings :

- Open the battery door by sliding it down,
- Connect the battery pack to the connector inside the handset,
- Place the battery with sticker face up and wires along the left side of the battery pack,
- Replace the battery door.

✦ *Charging / Recharging the telephone* (See battery status icon on page 2.)

On first use or when inserting a new battery, charge the battery with the handset for **at least 24 hours.** This ensures optimal battery life reached after 3 cycles of charge/uncharge. The battery needs to be charged if you hear a beep when using the telephone.

✦ *Configuring the phone for use*

**Don't change your configuration code** if you live in one of the countries in the top part of the table below. Your product is already factory configured with the right settings.

**Warning** : This product is **ONLY** designed to be used in countries **LISTED** below.

| Country | | | | | Code | |
|---|---|---|---|---|---|---|
| Northern Ireland | R | 9 | 9 | # | 44 | OK |
| UK | | | | | 44 | |

**Warning :** If you live in the country in the table below, you **must** enter the relevent configuration code using the key sequence shown followed by your country code.

| Rep. of Ireland | R | 9 | 9 | # | 153 | OK |
|---|---|---|---|---|---|---|

*For Example to configurate for Republic of Ireland :*
R → 9 → 9 → # → dial 153 → OK

**Advice :** If you have bought your product in any of the above countries but want to use it in another one, you can enter the configuration code, according to the above tables, in order to activate the right country settings.
# Using the telephone
## ◎ Making a call

**✦ *Answering a call / Hanging up***

(◎) ➡ answer the call.

To end the conversation, press the key again or replace the handset on the base station.

**✦ *Calling directly***

(◎) ➡ dial the phone number.

**✦ *Predialling the number before calling***

Dial the phone number ➡ (◎)

**✦ *Calling from a phonebook***

(👤) or (📷) ➡ (1•) or (3•) ➡ (◎)

*to scroll through the list*

**✦ *Adjusting the volume (earpiece or loudspeaker)***

(◠)

☏ flashes on an incoming call or if the answerphone Kala 300 Vox is on line.

To correct entries use (ᴄ).

## ◀•)) Using handsfree on the handset

(◀•)) on Kala 300 handset          (◀•)) on Kala 300 Vox handset

**✦ *Activating / Deactivating the loudspeaker***

(◎) ➡ (◀•)) / (◀•))

**Warning :** Handsfree activation could suddenly increase the volume in the earpiece to a very high level. Make sure the handset is not too close to your ear.

3 volume levels are available for both the earpiece and the loudspeaker.

## ᴄ Using the Redial list and Correction key

**✦ *Accessing / exiting the redial list***

(ᴄ) ➡ (1•) or (3•) / (ᴄ)

*to scroll through the redial list*     *to exit*

**✦ *Calling a number from the redial list***

(ᴄ) ➡ (1•) or (3•) ➡ (◎)

*to scroll through the redial list*

**✦ *Deleting a number from the redial list***

(ᴄ) ➡ (1•) or (3•) ➡ (6×) *to delete the current entry*

*to scroll through the redial list*

The redial list contains the last 5 numbers called : from the latest to the oldest.

✦ *Storing one of the redial list numbers into one of your phonebooks*

 ➡  or  ➡  or  *beep* ➡ enter ➡ 
*to scroll through the redial list*                    the name

✦ *Number correction*

 corrects :

- ● a digit when predialling,
- ● a digit or a character when entering names in the phonebooks.

A long press on  aborts any procedure in progress.

##   Creating and changing phonebook entries

*The telephone has two phonebooks :*

 *A 20-entry family phonebook (see VIP feature p.13)*

 *A 20-entry friends phonebook. (see VIP feature p. 13 )*

✦ *Creating an entry*
*Each entry contains a name (10 characters) and a number (16 digits).*

1. Enter the phone number and press  or .

*Note : To insert a pause, long press on* .

2. Enter the name and press  to validate.

✦ *Changing an entry (name)*

 or  ➡  or  ➡  ➡  ➡ 
                    *to scroll through the list*          *to modify* the name

✦ *Changing an entry (number)*

 or  ➡  or  ➡  ➡  ➡  ➡ 
                    *to scroll through the list*          *to modify* the old number

✦ *Deleting an entry*

 or  ➡  or  ➡  ➡  ➡ 
                    *to scroll through the list*          *to delete* the entry

##  Using the call log

*This feature is available if you have registered to the caller identification service with your operator.*
*The call log stores the last 10 external calls received :*

*- answered calls (  )*

You can also create an entry from the redial list and the call log*.

Press  or  to access or exit the phonebooks.

*\* Subject to a subscription with your operator.*

*- unanswered calls*

*- network message service information\**

*- messages from your answerphone (Kala 300 Vox only) (☑).*

*\* Subject to a subscription with your operator.*

✦ *Accessing / exiting the call log*

 ➔  or     /    

*to scroll through the log*                    *to exit*

✦ *Consulting the call log*

*The screen can either display :*

● *the caller's number\**

● *the caller's name (if known in the phonebook)\**

● *stars if it is an unidentified call\*\**

● *dashes if non recognised number*

You can display, the phone number, the time and date of the call by

pressing .

Press  to return to consulting mode.

*\* Subject to a subscription with your operator for the Caller Line Identification and/or Name Display services*

*\*\* Unlisted numbers, withheld caller identification*

✦ *Calling a number from the call log*

 ➔  or  ➔ 

*to scroll through the log*
✦ *Deleting an entry from the call log*

 ➔  or  ➔  ➔ beep ➔ 

*to scroll through the log*                              *to exit*

✦ *Storing one of the log numbers into your phonebooks*

 ➔  or  ➔  or  beep ➔ enter ➔ 

*to scroll through the log*                      the name

 **Using the intercom (extra-handset, Duo, Trio, Quattro)**

*This function can only be used with a multi-handset configuration. It allows you to make free internal calls and transfer external calls from one handset to another.*

✦ *Internal call*

 short press to call all the handsets in idle mode.

 long press, enter the handset number (1 to 4) to call the selected handset in idle mode.

*\* If the handset does not belong to the Philips Kala 300 range, this function may not be available.*

☐ flashes if there is a new message on the operator mail box (subject to a subscription with your operator.)

Time and date depends on the network.

☐ is displayed if a message has been left on the operator mail box.

Intercom & call transfer is only possible with handsets\* registered to the same base station.

**7**

Press ⏻ or ☎ to answer or hang up the internal call.

*\* If the handset does not belong to the Philips Kala 300 range, this function may not be available.*

✦ *Fast call transfer*
During a call in progress you can transfer the call without waiting for the

other handset to pick up : ⏻ ➝ ☎.
All the handsets ring.

During transfer, the person on hold will hear music.

✦ *Call transfer to a specific handset*
*During a call in progress you transfer the call to a specific handset :*

Long press on ⏻ ➝ enter the handset number (1 to 4) ➝ ☎

4 handsets can be registered to the same base station.

### 🔔 Paging (valid also for Duo, Trio, Quattro packs)

🔔 for Kala 300 Vox base station - 🔔 for Kala 300 base station.

All the subscribed handsets ring.

*This feature allows you to locate the handset(s).*

Press 🔔 or 🔔 on the base station. Press any key on the handset to

stop ringing once relocated or press 🔔 or 🔔 again.

### 🔔 Adjusting the Kala 300 Vox Base ringer

**Melodies :** 3 melodies are available on the base station.

Long press on 🔔 to enter melody programming mode.

The first melody will be played, press 🔔 to hear the next melody. To validate your choice, let the music play until you hear the validation beep.

**Melody Volume :** 4 volume levels including silent are available on the base station.

When the melody is playing, press ➖ to change the volume. To validate your choice, let the music play until you hear the validation beep.

The last selected level will be registered for the next call.

When the melody is playing, a long press on ➖ deactivates the ringer on the base station.

# Using your answerphone

## 📼 Setting up the answerphone

*The answerphone is by default activated with a pre-recorded message and the answer & record mode.*

*Recording capacity : 9 min. (standard quality) - 6 min (high quality) : including personal outgoing message if recorded.*

### ✦ Activating the answerphone

*From the base station* : Long press on (▣▶)

*From the handset* : (📞) ➡ (7) ➡ *beep* ➡ (📞)
*To exit*

### ✦ Deactivating the answerphone

*From the base station* : Long press on (▣▶)

*From the handset* : (📞) ➡ (9) ➡ *beep* ➡ (📞)
*To exit*

### ✦ Playing new messages / playing a memo

*From the base station* : (▣▶). You can adjust the volume using (▬)

*From the handset* : (📞). You can adjust the volume using (▬)

### ✦ Playing your old messages

*From the base station* : (▣▶).

*From the handset* : (📞) ➡ (2) ➡ (1) or (3) ➡ (📞)
*previous or next message*   *To exit*

### ✦ Deleting the current message
